REISSUE APPLICATION DECLARATION BY THE INVENTOR		Docket Number (Optional)							
		SMIT26-00008							
I hereby declare that:  Each inventor's residence, mailing address and citizenship are stated below next to their name.  I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6.357.158, granted March 19, 2002 and for which a reissue patent is sought on the invention entitled Reticle-Equipped Telescopic Gunsight and Aiming System,									
the specification of which									
is attached hereto.									
was filed on as reissue application number									
and was amended on (If applicable)									
I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.  I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.									
I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.									
I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)									
by reason of a defective specification or drawing.									
by reason of the patentee claiming more or less than he had the right to claim in the patent.									
by reason of other errors.									
At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:									
This is a broadening reissue. The patentee claimed less the disclosure and the prior art. In particular, and without link horizontal hairline need not be exactly four in number, not horizontal lines of sequentially incremental length. The intervention may alternatively be employed by providing other features of the lines on the reticle (such as the inner of the range-marker indicia. The invention may still furth a sequentially incremental length (or a length correspond corresponding range), such as by only one horizontal line cross-wind at the respective range. Still further, another together with other features of markings on the reticle, for	nitation, the range-need not all comprise invention may be enting horizontal lines from st end of the bother be employed withing to adjustment for having a length contaspect of the invention	marker indicia on the reticle below the center thorizontal lines, and need not all comprise inployed with two or three range-marker indicia. For less than all of the range-marker indicia, using tom post on the vertical hairline) for at least one in the less than all of the range-marker indicia having or a predetermined cross-wind at the presponding to adjustment for a predetermined in includes use of the range-marker indicia
